

Manual Card Feeder

S5305xx

Target markets:

- Banking
- Transit
- Leisure
- Front-desk operation

The manual card feeder option is a smart addition to Evolis Pebble and Dualys printers.

It replaces the 100-card automatic feeder and allows cards to be inserted manually, with seamless delivery after personalization.

The manual feeder is specially designed for fast and hassle free operation, as an over-the-counter printer for every day use in a corporate setting or at a front desk.

With virtually zero waiting time for the card holder, the manual feeder matches customer satisfaction with effectiveness.

This feature can be installed in a snap, while configuration is a matter of a few clicks.

Available on:

- Pebble
- Dualys
- Securion
- Tattoo
- Tattoo Rewrite
- Quantum

Configuration :

Through Driver's
Graphical Properties
Tab
