

Pebble & Dualys Travel Bag

A5306

Pebble and Dualys are follow-me printers that can be easily carried thanks to a Travel Bag made by Evolis, which also serves as a protection for your equipment.

Designed to carry the printer, consumables and cables, this Travel Bag can host the Pebble or the Dualys model. You can shove the Dualys in by simply removing the lower levelling pad.

Its sleek design and quality finish make it the must-have accessory for professionals who need to issue badges on-site and with a picture, in schools, for corporates with multiple locations and for event management as well.

This Travel Bag also stands as a powerful selling vehicle to promote the Evolis printers when showcasing them to resellers, customers and prospects.

Be cautious when you manipulate the Travel Bag. Although a robust accessory, it does not act as a rigid shock-proof case.

By handling it with care, as you would do with your laptop computer, you make sure that the Evolis printer you carry does not get compromised.
